

PERMISSION TO PUBLISH SAMO 2004 MANUSCRIPT

In consideration for being invited to present and submit a paper, I hereby grant permission to the Los Alamos National Laboratory (LANL) to publish my manuscript with the title _____ as part of the Proceedings of the Fourth International Conference on Sensitivity Analysis of Model Output (SAMO). My permission extends to publication, copying, and distribution of the Proceedings on the world wide web with public access, as well as to digital storage media to be distributed to SAMO attendees, and printed publications, the form of publication to be at the discretion of the SAMO 2004 organizers.

I certify that my paper has been reviewed by my institution and/or funding agency, if appropriate, and that it has been released for open dissemination. I understand that with this agreement, neither I nor my institution/funding-agency forfeit any of our statutory copyrights in the material contained in the manuscript other than the permissions granted herein.

I further represent that I am authorized to give this permission, that, to the best of my knowledge, the manuscript does not libel anyone, infringe the copyright of another, or otherwise violate anyone's statutory or common law right.

Printed name _____

Signature _____ Date _____

LANL reserves the right to not publish the manuscript if it is deemed inappropriate, for example, if it poses a security risk to the Laboratory or the United States of America.
